## ***Wedding Bliss***

We believe that the entire planning process should be as thoughtful and fun as the wedding day itself. Birchtree offers a fully customized experience with a tasting, walkthrough, and planning tools that help bring your details to life in an organized, easy way. We love the opportunity to highlight and incorporate food from special moments, family recipes and favorites so that the menu is also a reflection of you as a couple.

## ***Love Your Food***

When Birchtree began catering in 2008, we were inspired by the bounty that local farms and markets had to offer. We value the close relationships we've built with our local farmers, artisans, and vendors - and our clients can taste the difference! We are proud of our scratch kitchen, where everything from ricotta and jams to bread and pasta are made in house. Our dishes are made with care and from whole ingredients, guaranteeing fresh and unique seasonal flavors.

## ***Local Sourcing***

All dairy, cheeses, eggs and meats are locally sourced. Fruits, vegetables and herbs are sourced locally whenever possible, and all other produce is low or no-spray from small farms in the U.S. Our seafood has been carefully selected for sustainability and quality.

We thank our local farms and food providers: *Green Meadow Farm, FarmArt, Common Market, Valley Shepherd Creamery, Germantown Kitchen Garden, Samuels and Sons Seafood*

## ***Low Waste***

As part of our commitment to environmental responsibility, Birchtree has a strong composting program. Recycling and composting at events allows us to adhere to our one trash bag policy.
