

Awbury Arboretum

Year of Birds 2022

Did you know that Awbury Arboretum is a birding hotspot?

Over 150 bird species have been recorded at the Arboretum over the past five years alone. Join us in 2022 for a year of programming devoted to celebrating our feathered friends, shining a spotlight on the challenges they face, and learning about ways to help them survive and thrive in our changing world. Each month we will highlight a different bird on our blog - visit www.awbury.org to read up and boost your bird knowledge!

JANUARY - Dark-Eyed Junco

- (2nd) *New Year Bird Hike* with Awbury's resident birder Bill Reaume
